## Work History

Private Practice - Washington, D.C. / Consulting: Berkeley, CA

Mar 2006 - Present

### Clinical Psychologist

Washington Center for Psychoanalysis

Sep 2007 - Present

### Candidate: Modern Perspectives Psychotherapy Program

Sub-specialty program: advanced psychotherapy

A Better Way, Inc.

Berkeley, CA, United States

Jan 2005 - Mar 2006

### Primary Supervisor

As a senior staff member of this social services agency, I trained and supervised 15 pre and post doctoral clinical psychology graduate students. This included teaching courses in psychodynamic clinical theory, family systems therapy techniques, psychodiagnostic assessment, and the weekly clinical case conference.

Private Practice - Berkeley, CA

Jul 2002 - Mar 2006

## **Assessment, Consultation, & Psychotherapy**

---

Johnson Controls, Inc.

May 2004 - Jun 2005

### **Staff Psychologist – part time/contract**

As a contract employee of Johnson Controls, Inc. I worked at the Lawrence Livermore National Laboratory which was jointly managed by both the Dept. of Energy and the University of California. As a staff member of the EAP department located in the Health Services Department at this national laboratory we provided EAP services to a group of 9,000 employees. Regular duties include Human Reliability Program psychological evaluations of MMPI-2 and interview information to determine suitability for safety and security sensitive positions.

---

Sunny Hills Children's Garden – Threshold for Change; Satellite facilities

2004 - 2005

### **Qualified Mental Health Professional (Day Treatment Manager)**

At this six bed level 14 residential treatment facility consisting of a residence and an intensive day treatment program for seriously emotionally disturbed adolescent girls, I ran the day treatment program. This work included planning, implementing, and executing day treatment; collaborating with social work staff; leading 5 psychotherapy groups per week; crisis management and intervention; as well as regular consultation with managers and informal supervision of line staff.

---

ABT Associates, Headquartered in Cambridge, MA

Feb 2003 - Mar 2004

### **Consulting Psychologist**

Pediatric neuropsychology research project funded by Center for Disease Control. Utilized over 1200 subjects and neuropsych battery of 15 unique instruments. Collaborated in training and certification of 7 child assessors who were Ph.D. and masters level psychologists. Provided crisis on-call coverage for research clinics. Consultation with project managers and principle scientist re: use and application of neuropsychological instruments, liability and risk management, and data management procedures. Interface with clinic managers, parents of subjects when necessary, and information technology professionals. Provided parent feedback letters on research results consistent with IRB guidelines.

---

CALIFORNIA DEPT. OF CORRECTIONS

Feb 2000 - Feb 2004

### **Staff Psychologist & Contract Psychologist**

As a case manager in the Enhanced Outpatient Program in the Administrative Segregation @ this state correctional facility, which includes level 1-4 inmates, I carried a caseload of approximately 20 inmates most of whom suffered from severe, chronic mental illness. While @ San Quentin I actively participated with two psychiatry fellows in a weekly forensic seminar UCSF Law and Psychiatry fellowship program.

---

## **Education**

---

Chestnut Lodge Hospital

Mar 1997 - Jun 1999

## Post-doctoral Resident in Clinical Psychology

150 bed psychiatric hospital providing a full continuum of care to adults, adolescents, and children including acute inpatient, residential, day treatment, and partial hospitalization. Duties include co-managing acute inpatient ward with Clinical Administrative Psychiatrist, group psychotherapy, individual psychotherapy with adults and adolescents, psychodiagnostic assessment, and research activities

---

## CALIFORNIA PACIFIC MEDICAL CENTER - Department of Psychiatry

Jul 1992 - Aug 1993

### Clinical Psychology Internship

The Mental Health Clinic is the outpatient division of the Department of Psychiatry of CPMC. It offers comprehensive interdisciplinary evaluations, individual therapy (adult, adolescent, and child), group psychotherapy, psychiatric medications, and psychological testing. Theoretical orientation is psychodynamic. The Inpatient service admits patients seven days per week, 24 hours per day: services for adult patients who require the safety of an inpatient stay for diagnostic assessment and brief treatment.

---

## California School of Professional Psychology - Berkeley

Sep 1989 - Feb 1997

### Ph.D., Clinical Psychology

---

## Brandeis University - Undergraduate

1983

### B.A., Psychology/Sociology

---
